Sticky Bowls

The sticky bowl has been designed to stick mixing bowls, plates or whatever it is you need secured to a flat surface. It basically provides an extra hand in the kitchen. One side has been designed bigger than the other to accommodate a larger range of bowl sizes.

Features:

- Commercial design engineered for high durability.
- Heat resistant - made from high quality silicone that withstands up to 500° F.
- Completely food safe, made of a non-porous material that does not retain odors.
- Warranty: 1 year replacement

Instructions For Use:

- 1) Place sticky bowl on any smooth surface (stainless steel, laminate, glass, granite, marble, etc.)
- 2) Press in center of sticky bowl with fingers.
- 3) Sit bowl in centre and press down to secure suction.
- 4) Tilt lever to release sticky bowl.
- 5) Sticky bowl is dishwasher safe.
