

Physical THERAPY

Products for Professional Therapists

About Us

North Coast Medical Founders
*Lori Biehl and the late Frank J. Biehl,
with son and current CEO, Mark E. Biehl.*

North Coast Medical is committed to offering outstanding customer service and exceptional quality products at competitive prices.

Through two generations, beginning with founders Lori Biehl and the late Frank J. Biehl, and now led by their son, Mark E. Biehl, the Biehl family has envisioned assisting individuals with independence and comfort in daily living for over four decades. Providing products to meet those needs is an ever-changing process as new products are developed annually. Our level of industry commitment to rehabilitation is unwavering, and now extends globally.

Are you getting what you expect from your supply chain partner?

EXPECT MORE.

For over 45 years, North Coast Medical has maintained an outstanding reputation in the global rehabilitation market. North Coast is a **strategic supply chain partner**, providing innovative opportunities for our customers and business partners.

Why choose North Coast Medical?

- Global leader in design and development for rehabilitation products, equipment and supplies.
- Impressive portfolio of market-leading, high quality, proprietary branded products.
- Big enough to meet your demands, yet small enough to be agile and responsive.
- Quality is paramount, delivery is prompt, and customer service is outstanding.

Exercise Balls

Economical burst-resistant balls provide versatile exercise workouts.

- Tested to support up to 550 lbs. (250 kg).
- Helps to improve core stabilization by training the spinal column muscles as the body works to stay in balance.
- Balls are available individually in retail box with handle.
- Not intended for heavy lifting.
- Not made with natural rubber latex.

Ideal for clinic or home use.

Exercise Balls

	Color	Diameter
NC50100	Blue	45 cm (17¾")
NC50101	Red	55 cm (21½")
NC50102	Teal	65 cm (25½")
NC50103	Dark Blue	75 cm (29½")
NC50104	Silver	85 cm (33½")

Mini Ball

Strengthen key muscle groups, core health, endurance, posture and balance.

- High quality, 9" (23 cm) diameter therapy ball intended for exercising and strengthening the abdomen, back, hips, knees, shoulders, and neck.
- Anti-burst vinyl material deflates slowly if punctured.
- Designed to remain elastic and squishy when fully inflated.
- Supports up to 330 lbs. (150 kg).
- Not made with natural rubber latex.

Includes exercise poster.

Available in Virtual Showroom™

Economy Shoulder Pulley

Highest quality in the market!

- Increase shoulder range of motion in the clinic or at home.
- Large, easy-grip handles.
- Non-slip web door strap.
- Simple to adjust cord length.
- Smooth action pulley mechanism.

**Economy
Shoulder Pulley**
NC52080

Universal Door Bracket

**Easy on, easy off
over-the-door bracket.**

- Bracket can remain in place on the top of the door, ready for the next exercise.
- Made of smooth, coated metal to help prevent door scratches.
- Bracket width is 1³/₄" (4 cm), which fits over commercial and most standard doors.
- Includes two EVA foam pads which help secure the bracket around doors with narrow widths.

*Use self-adhesive
foam pads for
narrower
door widths.*

1-3/4"
(4.4 cm)

NC52081 Universal Door Bracket

To order, log in at **www.ncmedical.com** or call **800.821.9319**

Available in Virtual Showroom™

Shoulder Pulley

Everything needed to perform range of motion exercises at home.

- Ideal for home use, to independently improve range of shoulder movement and coordination following shoulder injury or surgery.
- Can be used for exercises while seated, standing, or lying down.
- Sets up in minutes by positioning the door strap over the top along the hinged side of any standard door.
- Pre-assembled and ready to use.
- The door strap fits snugly between the door and frame and will not scratch surfaces.
- For optimal attachment to door, use the Norco® Universal Door Bracket (sold separately).
- Not made with natural rubber latex.

Door strap fits snug between door and frame.

NC52069 Shoulder Pulley

Retail ready box includes:

- Exercise booklet with step-by-step instructions and photos
- Door strap
- 6½ ft. (2.4 m) cord
- Pulley mechanism and comfortable, ergonomically designed handles

Common Trigger Points

BODYtool™

TRIGGER POINT SELF MASSAGER

**GREAT FOR: NECK, SHOULDERS,
BACK, ARMS, LEGS, TORSO & FEET!**

- Designed to target trigger points and muscle knots in the body to assist with temporary release of muscular tension.
- **Textured grip handles** allow better control for effectively targeting trigger points.
- Features **seven large knobs**, strategically placed to control pressure to the desired areas for trigger point release and breaking up of myofascial tissue.

NC69700 Body Tool™

**Body Tool™
Retail Stand
NC69700-RS**

Retail display rack holds 12 Body Tool™ massagers.

Easy-to-follow instruction guide and poster included!

Available in Virtual Showroom™

EVA Foam Roller

Professional quality foam roller designed for heavy and repeated use in multi-user environments.

- Great for proprioceptive balance and stability exercise or to roll out trigger points, knots and areas of increased muscle density.
- Use for strengthening, flexibility and stretching exercises.
- Provides comfortable support — gentle on tight muscles while lying supine, yet functional enough for light massage rolling.
- Closed-cell, textured, high-density EVA foam technology resists breaking down and allows for easy cleaning between clients.
- Built with high-grade materials for long-lasting performance.
- Roll measures 36" (91 cm) long with a 6" (15 cm) diameter.

Lumbar Roll

Provides comfortable support to help improve posture and relieve lower back pain.

- Adjustable, non-elastic strap allows users to secure the Lumbar Roll to standard chair backs and car seats at the desired height.
- Innovative strapping design allows the Lumbar Roll to maintain position in the hollow of the back, or be repositioned for maximum comfort.
- Made of polyurethane foam with a removable polyester cover that is easy to clean.
- The removable cover includes a zipper guard for easy opening and closing of the zipper.
- Available in **Standard** and **Firm** densities.
- Rolls measure 11" (28 cm) long with a 5" (13 cm) diameter.
- Not made with natural rubber latex.

Anchor™ Tape

Anchor™ Rigid Strapping Tape

Healthcare professionals choose Anchor™ for value and performance.

- Designed for corrective and preventative taping for shoulders, knees and other extremities.
- Anchor™ Rigid Strapping Tape is a strong-adhering, rayon-backed, zinc oxide, brown fabric tape.
- Rigid-cut edges allow for easy tearing — no scissors required.
- Rolls measure 15 yd (14 m) long x 1 1/2" (3.8 cm) wide.

NC22000-01 **Anchor™ Rigid Strapping Tape**

Use Anchor™ Fix under Anchor™ Rigid Strapping Tape.

Anchor™ Fix Underwrap Tape

Versatile underwrap provides gentle protection.

- Anchor Fix™ Underwrap Tape is a non-woven, hypoallergenic, white fabric underwrap that is used under rigid strapping tapes where the tape must stay in position under extreme stress and/or sweat.
- Use in conjunction with Anchor™ Rigid Strapping Tape for knee or shoulder taping techniques.
- The latex-free*, acrylic adhesive in Anchor Fix™ is better tolerated by the skin and helps to alleviate skin trauma when regularly taping.
- Use to adhere bandages or gauze against the skin. Also used by athletes as a skin protector to prevent "turf-burns".
- Rolls measure 11 yd (10 m) long x 2" (5.1 cm) wide.

NC22001-2 **Anchor™ Fix Underwrap Tape**

** Acrylic adhesive not made with natural rubber latex.*

**Manages load to
correct and protect.**

4 Way STRETCH with STRONG RECOIL

Dynamic Tape is highly specialized and designed to contribute genuine mechanical force into the kinetic chain. Working like a bungee cord, the unique, strongly elastic Dynamic Tape aims to absorb load, contribute to force generation, improve biomechanical efficiency and modify faulty movement patterns. Load reduction combined with powerful neurophysiological effects may provide prompt pain relief, reduce metabolic demand, facilitate recovery and improve function.

COLD + HEAT + CONTRAST + COMPRESSION

IMPROVE YOUR GAME!™

- The Therm-X[®] AT system utilizes thermal control technology to treat post traumatic and post surgical conditions where localized thermal therapy is indicated.
- Expand your treatment options with **heat, compression, contrast and cold—all in one portable machine.**
- Circulates a coolant that can maintain a specific temperature between 34°F and 110°F (1.1°C and 43° C) for an entire treatment cycle.
- No emptying or cleaning the tank. Therm-X[®] coolant circulates through the machine and garments, so all internal surfaces are kept sanitary and require no maintenance.

**NO ICE
REQUIRED!**

Ankle
Garment

- Easy-to-program touch screen—enter your own custom criteria, or choose pre-set protocols.
- Portable and convenient—unit weighs only 14 lbs (6.35 kg) and includes a carry handle.

Wireless "On-the-Go" Technology

Intelligent iontophoresis.

Technologically advanced,
self-contained iontophoresis
drug delivery system.

- Fully self-contained.
- Intelligent biofeedback microprocessor.
- Hydrogel dispersive technology—no saline required.
- Patented "shut-off" technology.
- SmartPower™ LED.
- Detects and measures skin impedance to optimize drug delivery.

Active area: 11.4 cm²
Dosage: 40 or 80 mA*min
Skin Adhesive: Hypoallergenic
Maximum Buffer Capacity: Ag/AgCl Stabilizer
Fill Volume: 2.0cc
Smart Power: 6V with intelligent microprocessor
Packaging: 6 ActivaPatch® Kits, Alcohol Wipes,
 Patient Information Cards
Treatment time: 2.5 Hours

Wired Technology

ADVANTAGES

- Conforms extremely well to uneven treatment sites.
- Maximum strength, precise buffering with new Carbon-Ag/AgCl technology.
- Large ground electrode surface area lowers sensation and increases comfort.
- Highly absorbant drug matrix.
- Large surface adhesion area.

TRIVARION® IS AVAILABLE IN THE FOLLOWING SIZES:

SMALL 1.5cc
NC89180B

MEDIUM 2.0cc
NC89181B

LARGE 3.5cc
NC89182B

**TRIVARION®
BUTTERFLY**

MEDIUM 2.0cc
NC89183B

ADVANTAGES

- Two controls operate dose and current, with optional push-knob or turn capabilities.
- High-contrast display indicates dose, time and current.
- More power than dual-channel devices for better penetration; up to 80 volts.
- Automatic current ramp-up and ramp-down for maximum comfort. Dose range from 0 to 80 mA-min with 0.1 mA-min increments.
- Time calculations are performed automatically and recalculated if dose and current settings are changed, or with pause/restart.

**ActivaDose® II Controller
NC89186**

Buffered Iontophoretic Delivery Kit

Variety of sizes and shapes offer great flexibility for iontophoresis treatments.

- Made of non-sensitizing, hypoallergenic, medical grade materials.
- Delivers ions with a pH balance up to 80 mA-min.
- Maximum strength, precise buffering with unique carbon- Ag/AgCl technology.
- The highly absorbent drug matrix has no messy hydrogel.
- Large ground electrode surface area lowers sensation and increases comfort.
- Each kit contains 12 individual treatment sessions that include: one activity electrode; one return electrode; one alcohol prep pad.

Each electrode has a large surface adhesion area.

Flexible. Thin. Contouring. Comfortable.

Competitor's product is not as thin or flexible.

Advanced, technology-based manufacturing for a thinner, more pliable electrode.

Easy-to-open packaging.

Not made with natural rubber latex.

Eco-Stim™ TENS + EMS

Combo unit provides safe, drug-free pain relief.

- TENS, EMS and Massage wave forms.
- 22 treatment modes. 6 modes allow Time, Frequency and Pulse Width customization.
- Large, easy-to-read backlit display.
- 40 levels of output intensity.
- Safety feature locks intensity level.
- Dual channel 120mA (at 500 Ohm load).
- Output frequency:
2 - 100 Hz
Pulse width:
100- 300 μ s per pulse
- Includes:
(4) 2"x 2" square reusable electrodes,
(2) lead wires,
(3) AAA batteries,
(1) belt clip, and
(1) instruction manual.

Stokō™

The Future of Knee Support

Stoko is changing the game, creating the world's first Supportive Apparel, for the athlete in all of us. Designed with medical-grade bracing to support ligament instabilities, sprains, and strains, you get the same support as traditional bracing, with the comfort and mobility of a compression tight. On-the-fly adjustability provides tailored support and fit that's fine-tuned for your evolving needs.

K1 BREATHE (shown at left)

Features state-of-the-art knitted ventilation for enhanced temperature control without sacrificing support.

THE EMBRACE SYSTEM™

Integrated Support Cables

The Embrace System™ wraps the leg with over 90ft (30m) of adjustable lightweight cables for heavy duty knee support during activities.

Supportive Laminations

This unique technology locks the cables in place, providing next-level stabilization that rivals the support of traditional, clunkier braces.

Control Dials

Full adjustability allows the level of support to be controlled depending on the severity of the knee injury and stage of recovery.

Flyte™

by PELVITAL

Break free from bladder leaks

Flyte is a simple, effective bladder leak treatment for stress urinary incontinence (SUI) designed to strengthen and treat weakened pelvic floor muscles.

Flyte is the only at-home intravaginal device that uses mechanotherapy and biofeedback to treat SUI — mild, moderate or severe bladder leaks (both frequency & volume) in just 5 minutes a day for 6 weeks. In clinical study, 82% of women were continent in only 6 weeks after using Flyte.

IT'S SIMPLE

Get real-time feedback during each five-minute session.

IT'S UNIQUE

Flyte uses the body's natural healing response to strengthen pelvic floor muscles in 6 weeks.

IT'S EFFECTIVE

Flyte amplifies the benefits of a Kegel by 39 times, helping you see results faster.

Clinically proven, FDA cleared.

Manufacturer's 120-day performance guarantee!

Available in Virtual Showroom™

Virtual Showroom

E-COMMERCE AFFILIATE PROGRAM

Join the Affiliate Program. Get an instant **online store**.

Virtual Showroom™ is an easy to install, fully-functional e-commerce platform designed specifically for rehab healthcare providers. Virtual Showroom™ integrates seamlessly into your existing website and gives your clients direct access to the products their therapists have recommended. It is simple to create your own Virtual Showroom™ and it requires no programming skills.

Highlights:

- Clients stay on your website when shopping for recommended products.
- Customizable: Select Featured Products, Categories, and color-match to your website.
 - Adapts to mobile devices and tablets.

Benefits:

- No annual, monthly, or transaction fees.
 - No inventory required.
- Up to 25% commissions on all product sales.
 - Competitive prices for all products.
- North Coast handles all customer service inquiries.
- Full product warranties and our 100% Satisfaction & Return Policy for all sales.

Rx CartTM 2.0 *As easy as writing a prescription.*

RxCartTM 2.0 allows the therapist to specify the right products, with the proper size, weight, resistance level, and brand. Your clients no longer need to wander aimlessly through a confusing website hoping to get the right products with proper fitment. This puts the expert decisions in the hands of you, the expert.

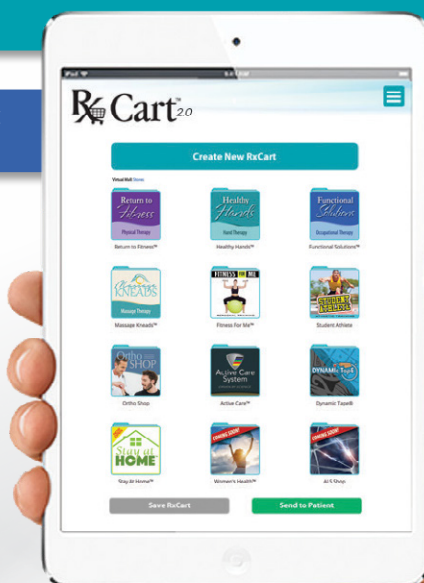

Harness the power of the therapist recommendation.

Simple to use on a tablet or smartphone while consulting with patients.

Makes it easy for your patient to get the specific therapy products you recommend.

Features include:

- Analytics to track sales to the location and the therapist.
- Save the product bundles you recommend most.
- View status, send reminders for ignored RxCarts.
- Organizations can proactively track and influence therapist's behavior, and reward those who are using the tools best.
- Up to 25% commissions on all product sales.

You specify the products. Your patient clicks a link in their email.
In just a few easy steps, patients purchase your list of recommended products.

Bring the power of Virtual ShowroomTM into your daily practice.
