

Dema Grip® Gentle

Tubular support with light compression

- Designed to provide approximately half the amount of pressure compared to regular Dema Grip[®] Compression Stockinette.
- Use single layered, or doubled over on itself with a 4/5" to 1 1/5" (2 to 3cm) exterior layer edge overlap.
- Can be used over wounds to secure bandages, or under orthoses for added protection, compression or padding.
- Made of blended cotton and spandex.
- Size based on flat bandage width.
- Rolls measure 33' (10m) long.
- Not made with natural rubber latex.

Provides a lighter amount of compression for sensitive skin types.
