

Air-Putty® – light as a feather

Extra-Soft Sky Blue

Soft Lavender

Medium-Soft Orchid

Medium Pink

Make exercising easy. Your clients will enjoy working with our specially formulated, super lightweight Air-Putty®. It's ideal for post-surgical, range of motion, multiple sclerosis and arthritis exercises. Because it's so lightweight, less stress is placed on the joints. People with limited hand strength can work with this putty for longer periods of time with less fatigue.

The pleasant texture increases compliance. Smooth, velvety Air-Putty® feels good in the hand. It's dry to the touch and doesn't have the tacky sensation of other putties. And, it won't stick to callouses, clothing or under fingernails.

Easy to order—just call toll-free. Choose the Air-Putty® that will best suit your client's exercise needs: extra-soft sky blue, soft lavender, medium-soft orchid or medium pink. To order, give us a call at **800-821-9319**.
