

Helps eliminate bending over to put socks on.

- Ideal for persons who have difficulty bending to reach their feet or limited use of one hand.
- Flexible plastic sidewalls bend to help ease sock application.
- Flat bottom trough stays in place, allowing foot to slide in smoothly.
- Textured surface prevents skin from sticking to the sock aid.
- Accommodates feet and calves of all sizes.
- Works with most socks and knee-high socks or stockings.
- Hand washable.

NOTE: This product is recommended for people who have some degree of strength in their legs.

To easily put on socks:
Gather the sock over the Sock-Assist™, slip your foot into the trough and pull handle up until the sock is released.
