Improved

Kinesio® Gold FP™ Enhancements

- Patented FingerPrint technology encourages nano-touch micro-stimulation to the epidermis and layers beneath.
- Medical grade adhesive using the micro-grip deep set adhesive manufacturing process provides a better grip and hold with less adhesive.
- Higher quality cotton material and thread count improves breathability and comfort.
- Single rolls are available in 1", 2", or 3" (2.5, 5 or 7.5cm) widths. All rolls measure 16.4' (5m) in length. Bulk rolls available in 2" (5cm) widths only.

THE *Original* KINESIO TAPE

Kinesio® Classic

Available to HealthCare Professionals and their Patients

Kinesio® Classic is designed to mimic human skin. The tape provides full support and stability without adversely neglecting the natural range of motion. High-grade cotton provides breathability and comfort for the sedentary to the elite athlete. The famous wave pattern serves as the foundation for which the medical adhesive provides days of wear without irritation.

Boxes of 6 single rolls are available in 2" x 13' (5cm x 4m).
