

Flexi™-Freeze offers features not found in other cold gel packs.

The Most
Flexible Gel Cold Pack

FLEXI™

freeze

QUALITY

- Constructed of extra-thick, flexible nylon material.
- Double sealed to prevent leaking with finished edges to prevent seams from separating.
- Thin profile with a smooth, high quality feel.
- Easy to clean.

FLEXIBILITY

- Gel pack conforms to the body.
- Maintains complete contact with treatment area.

ADVANCED GEL FORMULA

- Proprietary gel stays colder for a longer compared to other products that use bentonite or glycol formulas.
